DISTANCE-TIME-SPEED

1. How many minutes does a man take to cover a distance of 1300 m if he runs at a speed of 26 km/h?
2. A man crosses a distance of 3600 mts in 12 minutes. What is his speed in Kmph?
3. The speed of a truck is 126 km/h. The distance(mts) covered by the bus in 11 seconds will be:
4. A bus starts at 1:20 p.m. reaches its destination at 2:30 p.m. on the same day. If the speed the bus is 48 kmph then the distance (in kms) travelled by the bus is?
5. A part of the Journey is covered in 31.5 minutes at 80 km/h and the remaining part in 16 minutes at 75 km/h. The total distance(Km) of the journey is:
6. The ratio of speeds of two buses is 2 : 7. If the first bus runs 250 km in 5 hours, then the sum of the speeds (in km/hr) of both the buses is
7. A man covers 3/7 of a total journey by walk, 5/14 of the total journey by bus, and the remaining 3 km on Auto. His total journey is:
8. The speed of a bus is $2\frac{1}{6}$ times the speed of a car. The car can cover a distance of 486 km in 9 hours. Find out the distance that the bus can cover in 6 hours.

PRACTICE QUESTIONS:

1. A Cyclist crosses a 600 m long distance in 5 minutes. What is his speed in km per hour?
2. The ratio between the speeds of two buses is 7:8. If the second bus runs 400 km in 4 hours, then the speed of the first bus is:
3. A bullet fired from a rifle travels at an average speed of 2520 km/hr and hits a target after 0.2 seconds. How far is the target?
4. A man walking at the rate of 6 km/hr crosses a bridge in 15 minutes. The length of the bridge is
5. The distance between places Mumbai and Hyderabad is 999 km. A Bus leaves from at 6 am and runs at a speed of 55.5 km/hr. The bus stops on the way for 1 hour 20 minutes. It reaches Hyderabad at?
